Claims 1-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

There is no antecedent basis in claim 1 for "said determined value", in claim 10 for "the value", in claim 13 for "the momentary communication activity" and the "and/or" phrase in claim 10 is indefinite, in claim 14 there is no antecedent basis for "said information" and applicant's "may have" phrase in claim 14 is indefinite. Positive language should be recited in claims or the claims are indefinite. There is no antecedent basis in claim 17 for "the resource allocation", in claim 20 for "the network", in claim 23 for "the length."

Claim 24 is allowed.

The closest piece of prior art found, Forssell et al – U.S. patent #6671511 fails to disclose that the length of the time period after an active data flow from the cell phone to communication system is transferred to the mobile phone from the telecommunications system.

Claims 1 and 23 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

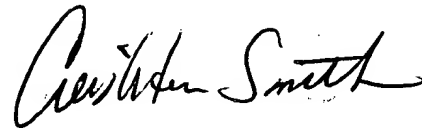

Claims 2-22 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Honkasalo et al, Pecan et al.
